

# Are you at risk for wet Age-related Macular Degeneration (AMD)?

We can diagnose wet AMD earlier with ForeseeHome®  
to preserve your vision

ForeseeHOME™  
AMD Monitoring Program

ForeseeHome is an easy, daily test you do at home that can alert your doctor of changes in your vision.

Ask your doctor if ForeseeHome to help detect wet AMD early is right for you.

FDA Cleared

Medicare Covered

ForeseeHome AMD Monitoring Program is covered by Medicare, subject to its coverage requirements for the test, to assess patients with intermediate dry AMD who are at risk of developing wet AMD.

**Indication for Use:** ForeseeHome is intended for use in the detection and characterization of central and paracentral metamorphopsia (visual distortion) in patients with age-related macular degeneration as an aid in monitoring progression of disease factors causing metamorphopsia including, but not limited to choroidal neovascularization (CNV). It is intended to be used at home for patients with stable fixation. ForeseeHome is not intended to diagnose; diagnosis is the responsibility of the prescribing eye-care professional.
